

SUBJECT INDEX TO VOLUME 29

	PAGE
Acaricides in British Columbia, Dinitrophenol derivatives as summer.....	191
Acaricides, Notes on some of the newer.....	81
Accessions, Main Library, Department of Agriculture, Selected List of..... (in each issue) I-VIII	
American foulbrood, Sulfathiazole in relation to.....	340
Ammonium sulfamate and sodium chlorate in eradication of poison ivy, Experiments with.....	584
Anemia in suckling pigs, A study of nutritional.....	370
Apple yields in the Okanagan Valley, Some factors affecting:	
V. Available P, K and Ca in the soil.....	27
VI. Contents of N, P and K in the terminal shoots.....	424
Automatic ventilation of common storages.....	497
Availability of phosphate carriers in calcareous soils, The.....	512
Bacterial flora on wheat seed in inoculation studies with <i>Helminthosporium sativum</i> , The significance of the.....	253
Barley, The effect of the plane of nutrition on the digestibility of.....	400
Barley seeds, The effect of loose smut on the viability of artificially inoculated....	45
Barley varieties, Shattering, breaking and threshability in.....	453
Barley varieties to spring frost, Reaction of.....	60
Biological and chemical techniques, Equine pregnancy diagnosis by.....	302
Blackflies (Diptera: Simuliidae), A preliminary evaluation of some insecticides against immature stages of.....	69
Book Reviews.....	96, 148, 200, 252, 408, 599
British Columbia, Dinitrophenol derivatives as summer acaricides in.....	191
British Columbia, The physiography of the agricultural areas of.....	273
Brittle dwarf of wheat, A note on the cause of.....	351
Brome grass in Western Canada, The performance of southern strains of.....	437
Bulb eelworm, <i>Ditylenchus Dipsaci</i> (Kuhn) Filipjev, in narcissus bulbs, Concerning the movement of the.....	354
Calcareous soils, The availability of phosphate carriers in.....	512
Canadian crop production, Minor element deficiencies affecting.....	376
Carleton County investigations, Some observations on (Fertility studies on soil types).....	1
Cereal seedlings, Chlorotic banding of.....	334
Cereal varieties for dormancy, Testing.....	538
Cheese, fresh curd and milk for fat acidity determination, New and improved methods for extracting fat from.....	551
Chemical methods of measuring DDT.....	53
Chemical control of the tomato hornworm on tobacco in Ontario, The.....	553
Chick rations, Flaxseed mucilage and its effect on the feeding value of linseed oil meal in.....	86
Chlorotic banding of cereal seedlings.....	334
Clonal rootstocks for pears, Seedling and.....	494
Composition of Canadian export wheat, 1926-1946, The varietal.....	97
Congeniality of some pear varieties on Quince A.....	490
Crested wheatgrass, Results of studies of.....	385
Cut potato sets by chemical treatment, Prevention of early decay of.....	345
Cyanogenetic glucosides and trypsin inhibitors in linseed oil meal.....	91

	PAGE
2,4-D, The survival of grasshopper nymphs on vegetation treated with.....	396
DDT, Chemical methods of measuring.....	53
DDT, Experiments in the control of <i>Simulium arcticum</i> Malloch in the Saskatchewan River by means of.....	527
Digestibility studies with ruminants:	
XIII. The effect of the plane of nutrition on the digestibility of linseed oil meal.	263
XIV. The effect of the plane of nutrition on the digestibility of barley.....	400
Dinitrophenol derivatives as summer acaricides in British Columbia.....	191
Dormancy, Testing cereal varieties for.....	538
Eelworm in narcissus bulbs, Concerning the movement of the bulb.....	354
Element deficiencies affecting Canadian crop production, Minor.....	376
Epidemiology of rust in western Canada as influenced by the introduction of stem-rust resistant varieties.....	230
Equine pregnancy diagnosis by biological and chemical techniques.....	302
Eradication of poison ivy.....	584
Estrone content of pregnant mares' urine, Variations in the.....	330
Export wheat, 1926-1946, The varietal composition of Canadian.....	97
Extracting fat from cheese, fresh curd and milk for fat acidity determination, New and improved methods of.....	551
Fat acidity determination, Extracting fat from cheese, fresh curd and milk for...	551
Feces of ruminants, The lignin fraction of the.....	418
Fertilizer uptake using radioactive phosphorus, Study of.....	512
Fertility studies, Soil. 1. Manure, fertilizer and lime for field crops at Ste. Anne de la Pocatière, P.Q.....	128
Fertility studies on soil types. 1. Some observations on Carleton County investigations.....	1
Field capacity for moisture, Indirect determination of.....	563
Field experiments of semi-latin square design, A study of.....	241
Flaxseed mucilage and its effect on the feeding value of linseed oil meal in chick rations.....	86
Flooding on emergence of forage crop seeds, The effect of.....	237
Flooding on soil phosphorus, Effects of.....	137
Forage crops for hay yield, Moisture determinations in the comparative testing of..	305
Forage crop seeds, The effect of flooding on emergence of.....	237
Formation of body protein from urea labelled with the isotope N ¹⁵ , The.....	185
Formula for estimating surface run-off, Development of a.....	465
Frost, Reaction of barley varieties to spring.....	60
Fleece weight to fibre thickness, The relationship of clean.....	595
Grains of different protein content to growing pigs, Feeding.....	579
Grasshopper nymphs on vegetation treated with 2,4-D, The survival of.....	396
Hay yield, Moisture determinations in the comparative testing of forage crops for..	305
Indirect determination of field capacity for moisture.....	563
Insecticides against immature stage of blackflies, A preliminary evaluation of some.	69
Larvae, The relative importance of graded temperatures and rates of evaporation in producing aggregations of.....	201
Larvae to gradients of evaporation, The responses of.....	216
Library, Department of Agriculture, Selected List of Accessions, Main.....	(in each issue) I-VIII

	PAGE
Lignin fractions of pasture herbage and of the feces of ruminants:	
I. The lignin fraction of pasture herbage.....	409
II. The lignin fraction of the feces of ruminants.....	418
Linseed oil meal, Cyanogenetic glucosides and trypsin inhibitors in.....	91
Linseed oil meal in chick rations, Flaxseed mucilage and its effect on the feeding value of.....	86
Linseed oil meal, The effect of the plane of nutrition on the digestibility of.....	263
Loose smut on the viability of artificially inoculated barley seeds, The effect of....	45
Low temperature breakdown of potatoes in storage.....	149
Manure, fertilizers and lime for field crops at Ste. Anne de la Pocatière, P.Q.....	128
Moisture determinations in the comparative testing of forage crops for hay yield..	305
Moisture studies, Soil. IV. Indirect determination of field capacity for moisture..	563
Narcissus bulbs, Concerning the movement of the bulb eelworm in.....	354
Nitrogenous compounds for ruminants, The nutritive value of:	
I. The nutritive value of urea as a protein supplement.....	173
II. The formation of body protein from urea labelled with the isotope N ¹⁵ ...	185
III. Synthesis of urea containing N ¹⁵	189
Nutrition on the digestibility of linseed oil meal, The effect of the plane of.....	263
Nutritional anemia in suckling pigs, A study of.....	370
Okanagan Valley. Some factors affecting apple yields in the.....	27
Pasture studies. XXIX and XXX. Investigations on the lignin fractions of pasture herbage and of the feces of ruminants.....	409, 418
Pasture herbage, The lignin fraction of.....	409
Pear orchards, The problem of undersize fruit in Kieffer.....	482
Pear varieties on Quince A, Congeniality of some.....	490
Pears, Seedling and clonal rootstocks for.....	494
Phosphorus by wheat, Experiments with radiophosphorus on the uptake of.....	167
Phosphate carriers in calcareous soils, The availability of.....	512
Phosphorus studies. I. Effects of flooding on soil phosphorus.....	137
Phosphorus, Study of fertilizer uptake using radioactive.....	512
Physiography of the agricultural areas of British Columbia, The.....	273
Pigs, A study of nutritional anemia in suckling.....	370
Pigs, Feeding grains of different protein content to growing.....	579
Poison ivy (<i>Rhus radicans</i> L.), Eradication of. IV. Experiments with ammonium sulfamate and sodium chlorate.....	584
Potatoes in storage, Low temperature breakdown of.....	149
Potato sets by chemical treatment, Prevention of early decay of.....	345
Preliminary evaluation of some insecticides against immature stages of blackflies, A.....	69
Pregnancy diagnosis by biological and chemical techniques, Equine.....	302
Pregnant mares' urine, Variations in the estrone content of.....	330
Protein from urea labelled with the isotope N ¹⁵ , The formation of body.....	185
Protein supplement, The nutritive value of urea as a.....	173
Quince A, Congeniality of some pear varieties on.....	490
Radioactive phosphorus, Study of fertilizer uptake using. IV. The availability of phosphate carriers in calcareous soils.....	512
Radiophosphorus on the uptake of phosphorus by wheat, Experiments with.....	167
Ruminants, Digestibility studies with.....	263, 400

	PAGE
Ruminants, Investigations on the lignin fractions of pasture herbage and of the feces of.....	409, 418
Ruminants, The nutritive value of nitrogenous compounds for.....	173, 185, 189
Rust in western Canada as influenced by the introduction of stem-rust resistant varieties, Epidemiology of.....	230
Sainte-Anne-de-la-Pocatière, Thirty-five years of weather records at.....	13
Ste. Anne de la Pocatière, P.Q., Manure, fertilizers and lime for field crops at.....	128
Seedling and clonal rootstocks for pears.....	494
Semi-latin square design, A study of field experiments of.....	241
Shattering, breaking and threshability in barley varieties.....	453
<i>Simulium arcticum</i> Malloch by means of DDT, Experiments in the control of.....	527
Size of seed in relation to size and shape of root in swede turnips.....	357
Smut on the viability of artificially inoculated barley seeds, The effect of loose.....	45
Soil, Available P, K and Ca in the (Okanagan apple yields).....	27
Soil fertility studies. I. Manure, fertilizers and lime for field crops at Ste. Anne de la Pocatière, P.Q.....	128
Soil moisture studies. IV. Indirect determination of field capacity for moisture...	563
Soil phosphorus, Effects of flooding on.....	137
Soil types, Fertility studies on. I. Some observations on Carleton County investigations.....	1
Spruce budworm, <i>Choristoneura fumiferana</i> Clemens (Lepidoptera: Tortricidae), The effects of temperature and moisture upon the behaviour of the:	
I. The relative importance of graded temperatures and rates of evaporation in producing aggregations of larvae.....	201
II. The responses of larvae to gradients of evaporation.....	216
Stem-rust resistant varieties, Epidemiology of rust in western Canada as influenced by the introduction of.....	230
Storage, Low temperature breakdown of potatoes in.....	149
Storages, Automatic ventilation of common.....	497
Summer acaricides in British Columbia, Dinitrophenol derivatives as.....	191
Sulfathiazole in relation to American fowlbrood.....	340
Surface run-off, Development of a formula for estimating.....	465
Synthesis of urea containing N ¹⁵	189
Thirty-five years of weather records at Sainte-Anne-de-la-Pocatière.....	13
Tobacco in Ontario, The chemical control of the tomato hornworm on.....	553
Turnips, Size of seed in relation to size and shape of root in swede.....	357
Urea as a protein supplement, The nutritive value of.....	173
Urea containing N ¹⁵ , Synthesis of.....	189
Urea labelled with the isotope N ¹⁵ , The formation of body protein from.....	185
Viability of artificially inoculated barley seeds, The effect of loose smut on the....	45
Weather records at Sainte-Anne-de-la-Pocatière, Thirty-five years of.....	13
Wheat, 1926-1946, The varietal composition of Canadian export.....	97
Wheat, A note on the cause of brittle dwarf of.....	351
Wheat, Experiments with radiophosphorus on the uptake of phosphorus by.....	167
Wheatgrass, Results of studies of crested.....	385
Wheat seed in inoculation studies with <i>Helminthosporium sativum</i> , The significance of the bacterial flora on.....	253
(Wool) Fleece weight to fibre thickness, The relationship of clean.....	595
